julianne chung

(as of July 21, 2022)

Department of Mathematics
Emory University
400 Dowman Drive
Atlanta, GA 30322, USA

☎ +1 (404) 727-3226
✉ jmchung@emory.edu
🌐 www.math.emory.edu/~jmchung/
Citizenship: USA

Research interests

numerical analysis & scientific computing, inverse problems & uncertainty quantification, computational image processing, numerical linear algebra, optimization, data science

Academic Position

- 2022 – present Associate Professor, Department of Mathematics, Emory University
- 2019 – 2022 Associate Professor, Department of Mathematics, Computational Modeling and Data Analytics (CMDA) Division, Academy of Data Science, Virginia Tech (VT)
- 2013 – 2019 Assistant Professor, Department of Mathematics, CMDA, VT
- 2011 – 2012 Assistant Professor, Department of Mathematics, University of Texas at Arlington
- 2009 – 2011 National Science Foundation (NSF) Postdoctoral Researcher, Department of Computer Science, University of Maryland at College Park, Mentor: Dianne O'Leary

Education

- 2004 – 2009 Ph.D. in Computational Mathematics at Emory University, Atlanta, GA
Dissertation: *Numerical Approaches for Large-Scale Ill-Posed Inverse Problems*
Advisor: James Nagy
- 2000 – 2004 Bachelor of Arts with Highest Honors at Emory University, Atlanta, GA
Major: Mathematics Minor: Dance and Movement Studies
Thesis: *Filtering Methods for Image Restoration*, Advisor: James Nagy

Funded research projects

- [G8] Title: *Computationally efficient algorithms for detecting anomalous atmospheric emissions*
Source of Support: *NSF DMS-2026841 (Collaborative Research: ATD)*
Award Amount: *\$160,794*
List of PIs: *Julianne Chung, Arvind Saibaba (North Carolina State University), Scot Miller (Johns Hopkins University)*
Support Period: *08/15/2020–07/31/2023*
- [G7] Title: *SAMSI Graduate Research Assistant Position*
Source of Support: *NSF*
List of PIs: *Julianne Chung*
Support Period: *09/01/2020–08/31/2021*

- [G6] Title: *Computational Methods for Large-scale Inversion and Uncertainty Quantification*
 Source of Support: *Alexander von Humboldt Foundation*
 List of PIs: *Julianne Chung*
 Support Period: *07/01/2019–08/30/2020*
- [G5] Title: *CAREER: Integrated Approaches for Fast and Accurate Large-scale Inversion*
 Source of Support: *NSF DMS-1654175*
 Award Amount: *\$ 402,796*
 List of PIs: *Julianne Chung*
 Support Period: *09/01/2017–08/30/2022*
- [G4] Title: *Stochastic Approximations for the Solution and Uncertainty Analysis of Data-Intensive Inverse Problems*
 Source of Support: *NSF DMS-1723005 (Collaborative Research: CDS&E-MSS)*
 Award Amount: *\$ 210,000 at Virginia Tech, \$ 400,000 total*
 List of PIs: *Matthias Chung (VT), Julianne Chung, Youssef Marzouk (MIT), Luis Tenorio (Colorado School of Mines)*
 Support Period: *09/01/2017–08/31/2020 (extension to 2022)*
- [G3] Title: *Real-time and Improved Image Reconstruction under Uncertainty*
 Source of Support: *Simons Foundation Collaboration Grant for Mathematicians*
 Award Amount: *\$42,000 awarded but declined as required in light of [G4] and [G5]*
 List of PIs: *Julianne Chung*
 Support Period: *09/01/2017–08/31/2022*
- [G2] Title: *Mathematical Approaches for Tomosynthesis Image Reconstruction*
 Source of Support: *NSF Mathematical Sciences Postdoctoral Research Fellowship*
 Award Amount: *\$ 135,000*
 List of PIs: *Julianne Chung*
 Support Period: *07/01/2009–06/30/2013*
- [G1] Title: *Computational Science Graduate Fellowship (CSGF)*
 Source of Support: *Department of Energy*
 List of PIs: *Julianne Chung*
 Support Period: *07/01/2006–06/30/2009*

Other funded projects

- [F2] Title: *MORE: Mathematics - Opportunities in Research and Education*
 Source of Support: *NSF and NSA*
 List of PIs: *Gretchen Matthews (VT), Nicole Bannister (Clemson), Lauren Childs (VT), Julianne Chung, Elena Dimitrova (Clemson), and Lea Jenkins (Clemson)*
- [F1] Title: *Phase I I/UCRC Virginia Tech: Center for Advanced Subsurface Earth Resource Models (CASERM), in collaboration with the Colorado School of Mines*
 Source of Support: *NSF*
 List of PIs: *Matthias Chung, John Chermak, John Hole, Erik Westman (VT)*
 Note: *My role in this grant proposal is as senior personnel.*

Awards & recognitions

- 2020-2022 Society for Industrial and Applied Mathematics (SIAM) Journal on Matrix Analysis and Applications (SIMAX) Associate Editor
- 2021 SIAM Conference on Applied Linear Algebra Invited Plenary Speaker
- 2017-2022 NSF Faculty Early Career Development (CAREER) Award
- 2019-2020 Alexander von Humboldt Stiftung/Foundation Award - Fellowship for Experienced Researchers
- 2021-2023 SIAM Diversity Advisory Committee Member
- 2019-2023 SIAM representative on the Joint Committee on Women in the Mathematical Sciences
- 2016-2017 Elected Secretary of the Society for Industrial and Applied Mathematics (SIAM) Activity Group on Imaging Science
- 2010 Department of Energy (DOE) Frederick A. Howes Scholar in Computational Science
- 2004 – 2009 George W. Woodruff Fellowship, Emory University

Publications

All publications (except abstracts) are hyperlinked.

(My students are marked with asterisks and my postdoctoral fellows are marked with daggers. Other students and postdoctoral fellows are marked with a plus sign.)

- Submitted work

- [J33] Julianne Chung, Jiahua Jiang[†], Scot M. Miller, and Arvind K. Saibaba. “Hybrid projection methods for solution decomposition in large-scale Bayesian inverse problems.” Submitted, 2022. arXiv:2206.06664
- [J31] Julianne Chung and Silvia Gazzola. “Computational methods for large-scale inverse problems: A survey on hybrid projection methods.” In revision, 2022. arXiv:2105.07221
- [J30] Julianne Chung, Matthias Chung, Silvia Gazzola, and Mirjeta Pasha⁺. “Efficient Learning Methods for Large-scale Optimal Inversion Design.” In revision, 2021. arXiv:2110.02720

- Journal papers (accepted)

- [J32] Taewon Cho^{*}, Julianne Chung, Scot M. Miller, and Arvind K. Saibaba. “Computationally efficient methods for large-scale atmospheric inverse modeling.” Accepted for publication, *Geoscientific Model Development*, 2022. <https://doi.org/10.5194/gmd-2021-393>
- [J29] Elizabeth Newman⁺, Julianne Chung, Matthias Chung, and Lars Ruthotto. “slimTrain - a Stochastic Approximation Method for Training Separable Deep Neural Networks.” Accepted for publication, *SIAM Journal on Scientific Computing*, 2022.

Presentations, invited talks & lectures

- **Invited talks**

- December 2022 Inverse Problems on Large Scales, Radon Institute of the Austrian Academy of Sciences, Linz, Austria
- September 2022 SIAM Conference on Mathematics of Data Science, San Diego, CA
- July 2022 CIMPA Summer School on Mathematical Methods in Data Analysis, Albania

- June 2022 Householder Symposium, Italy
Invited plenary speaker
- April 2022 SIAM Conference on Uncertainty Quantification, Atlanta, GA
- March 2022 AMS Spring Southeastern Sectional Meeting, Charlottesville, VA (cancelled due to COVID-19)
- March 2022 SIAM Conference on Imaging Science (online)
- March 2022 Computational Uncertainty Quantification for Inverse Problems Seminar, DTU, Lyngby, Denmark
- May 2021 SIAM Conference on Applied Linear Algebra (online)
Invited plenary speaker
- March 2021 SIAM Conference on Computational Science and Engineering (online)
- March 2021 AWM 50th Anniversary Research Days (online)
- February 2021 Eastern Washington Math Club (online)
- February 2021 Kansas State University Applied Math Seminar (online)
- September 2020 SAMSI Postdoc Seminar (online)
- August 2020 The Statistical and Applied Mathematical Sciences Institute (SAMSI) Program on Numerical Analysis in Data Science Opening Workshop (online)
- July 2020 SIAM Conference on Imaging Science, Toronto, Canada (cancelled due to COVID-19)
- June 2020 Householder Symposium (postponed to 2022 due to COVID-19)
- March 2020 Numerical Analysis Seminar, University of Bath, UK (cancelled due to COVID-19)
- February 2020 AG Modellierung, Numerik, Differentialgleichungen Colloquium, TU Berlin, Berlin, Germany
- January 2020 SFB 1294 Data Assimilation Seminar, University of Potsdam, Potsdam, Germany
- March 2020 SIAM UQ Conference, Garching, Germany (cancelled due to COVID-19)
- October 2019 Scientific Computing Seminar, DTU, Lyngby, Denmark
- March 2019 Department of Mathematics Colloquium, Auburn University, Auburn, AL
- January 2019 Oberwolfach Workshop on Tomographic Inverse Problems: Theory and Applications, Oberwolfach, Germany
Received NSF Travel Grant
- October 2018 Second International Conference on Mathematics of Data Science, Norfolk, VA
- June 2018 SIAM Conference on Imaging Science, Bologna, Italy
- May 2018 Inverse Problems: Modeling and Simulation, Malta
- May 2018 7th International Conference on Computational Harmonic Analysis, Nashville, TN
- April 2018 David Walsh Arts & Science Invited Speaker, Clarkson University, Potsdam, NY
- March 2018 42nd SIAM Southeastern Atlantic Sectional (SEAS) Conference, Chapel Hill, NC
Invited plenary speaker
- January 2018 Conference on Mathematical Image Analysis (MIA), Berlin, Germany
Invited plenary speaker
- November 2017 Isaac Newton Institute Workshop on Generative Models, Parameter Learning and Sparsity, Cambridge, UK
Invited plenary speaker

July 2017 Mathematical Congress of the Americas, Montreal, Canada
Received American Mathematical Society Travel Grant

June 2017 Householder Symposium XX, Blacksburg, VA

February 2017 SIAM Conference on Computational Science and Engineering, Atlanta, GA

January 2017 SAMSI Workshop on Statistical Inverse Problems, Raleigh, NC

July 2016 20th Conference of the International Linear Algebra Society, Leuven, Belgium
Received Association for Women in Mathematics Travel Grant

May 2016 SIAM Conference on Imaging Science, Albuquerque, NM

May 2016 SAMSI CCNS Transition Workshop, Research Triangle Park, NC

March 2016 Copper Mountain Conference on Iterative Methods, Copper Mountain, CO

October 2015 SIAM Conference on Applied Linear Algebra, Atlanta, GA

June 2015 IMA New Directions Short Course: Introduction to Uncertainty Quantification, Minneapolis, MN, *Invited Guest Lecturer*

April 2015 AWM Research Symposium, College Park, MD

April 2015 Wake Forest Computer Science and Mathematics Colloquium, Winston-Salem, NC

March 2015 SIAM Conference on Computational Science and Engineering, Salt Lake City, UT

September 2014 Cornell University Center for Applied Mathematics Seminar, Ithaca, NY

September 2014 University of Alabama at Birmingham Mathematics Colloquium, Birmingham, AL

July 2014 SIAM Annual Meeting, Chicago, IL

June 2014 Householder Symposium XIX, Spa, Belgium

May 2014 SIAM Conference on Imaging Science, Hong Kong

April 2014 Copper Mountain Conference on Iterative Methods, Copper Mountain, CO

April 2014 SIAM Conference on Uncertainty Quantification, Savannah, GA

February 2014 Women in Math Lecture, University of Akron, Akron, OH

January 2014 Linear Algebra and Optimization Seminar, Stanford University, Stanford, CA

January 2014 DTU Compute Scientific Computing Seminar, Technical University of Denmark, Kgs. Lyngby, Denmark

November 2013 Asilomar Conference on Signals, Systems, and Computers, Pacific Grove, CA

July 2013 2nd Workshop on MRI Phase Contrast and Quantitative Susceptibility Mapping (QSM), Ithaca, NY

February 2013 SIAM Conference on Computational Science and Engineering, Boston, MA

May 2012 SIAM Conference on Imaging Science, Philadelphia, PA

April 2012 Baylor University, Mathematics Colloquium, Waco, TX

December 2011 Southern Methodist University, Mathematics Colloquium, Dallas, TX

October 2011 University of British Columbia, Workshop on Computational Aspects in Medical Imaging, Vancouver, Canada

October 2011 Texas A&M University, Workshop on Inverse Problems, College Station, TX

August 2011 Michigan State University, Second Midwest Conference on Mathematical Methods for Images and Surfaces, East Lansing, MI

- July 2011 International Congress on Industrial and Applied Mathematics, Vancouver, British Columbia, Canada
Received SIAM Postdoctoral Travel Grant
- June 2011 Householder Symposium XVIII, Tahoe City, CA
- May 2011 Universität zu Lübeck, Graduate School for Computing in Medicine and Life Sciences Colloquium, Lübeck, Germany
- May 2011 Weill Cornell Medical College, Department of Biomedical Imaging Seminar, Manhattan, NY
- March 2011 SIAM Conference on Computational Science and Engineering, Reno, NV
- March 2011 National Institutes of Health, National Institute of Biomedical Imaging and Bioengineering Seminar, Bethesda, MD
- November 2010 University of Texas at Austin, Institute for Computational Engineering and Sciences Seminar, Austin, TX
- September 2010 Texas State University, Discrete Math Seminar, San Marcos, TX
- September 2010 Virginia Tech, Mathematics Colloquium, Blacksburg, VA
- September 2010 University of Maryland, Baltimore County, Applied Math Colloquium, Baltimore, MD
- July 2010 SIAM Annual Meeting/Conference on Life Sciences, Pittsburgh, PA
Received Association for Women in Mathematics Travel Grant
- June 2010 Department of Energy Computational Science Graduate Fellowship Annual Conference, Washington, DC
Received 2010 Fredrick Howes Scholar Award
- May 2010 Joint Research Conference on Statistics in Quality, Industry, and Technology, Gaithersburg, MD
- April 2010 SIAM Conference on Imaging Science, Chicago, IL
Received SIAM Postdoctoral Travel Grant
- March 2010 AMS Southeast Atlantic Sectional Meeting, Lexington, KY
- October 2009 SIAM Conference on Applied Linear Algebra, Monterey Bay, CA
- September 2009 National Institute of Standards and Technology (NIST), Mathematical and Computational Sciences Division Seminar Series, Gaithersburg, MD
- July 2009 Conference on Applied Inverse Problems, Vienna, Austria
Received US Office of Naval Research Travel Grant
- July 2009 Department of Energy Computational Science Graduate Fellowship Annual Conference, Washington, DC
- May 2009 Tomosynthesis Imaging Symposium 2009: Frontiers in Research and Clinical Applications, Durham, NC
- March 2009 SIAM Conference on Computational Science and Engineering, Miami, FL
BGCE Student Paper Prize Competition Finalist
- July 2009 SIAM Annual 2008/ SIAM Conference on Imaging Science, San Diego, CA
- April 2008 Copper Mountain Conference on Iterative Methods, Copper Mountain, CO
- March 2008 SIAM Conference on Parallel Processing, Atlanta, GA
- August 2007 University of California at Berkeley Matrix Computations Seminar, Berkeley, CA

July 2007 ICIAM Conference, Zurich, Switzerland
Received SIAM Student Travel Grant

● **Contributed talks and posters**

November 2020 NSF Algorithms for Threat Detection (ATD) Workshop

December 2018 SHI Sustainable Research Pathways (SRP) Workshop, Department of Energy Lawrence Berkeley National Laboratory

August 2016 SAMSI Opening Workshop on Optimization, Raleigh, NC

June 2011 IMA Workshop on Large Scale Inverse Problems and Uncertainty Quantification, Minneapolis, MN

July 2010 Conference on Numerical Linear Algebra: Perturbation, Performance, and Portability. A Conference in Celebration of G.W. Stewart's 70th Birthday, Austin, TX

February 2009 Georgia Scientific Computing Symposium, Atlanta, GA

June 2008 DOE CSGF Annual Conference, Washington, DC

March 2008 Emerson Center Lecture Symposium: Scientific Computing and Fast Algorithms
Received Best Poster Award

November 2007 Supercomputing 2007 Conference, Reno, NV

June 2007 DOE CSGF Annual Conference, Washington, DC

September 2005 III International Summer School on Numerical Linear Algebra in Image Deblurring, Monopoli, Italy

● **Programs**

December 2021 Banff International Research Station (BIRS), Women in Inverse Problems (online)

March 2019 ICERM Workshop on Computational Imaging, Providence, RI

December 2018 Sustainable Research Pathways (SRP) Workshop, Department of Energy Lawrence Berkeley National Laboratory

June 2015 IMA New Directions Short Course: Introduction to Uncertainty Quantification, Minneapolis, MN

June 2008 American Mathematical Society Mathematics Research Communities, Snowbird, UT
Conference Theme: Scientific Computing and Advanced Computation

- Week-long professional development program for peridocctoral researchers
- Served as head PI (for a team of 7) to answer a mock grant proposal for a project on image processing, fluid dynamics, and uncertainty quantification

July 2007 57th Meeting of Nobel Laureates, Lindau, Germany

- A globally recognized forum for interactions between Nobel Laureates (from physiology and medicine) and young researchers

Summer 2007 Lawrence Berkeley National Laboratory Research Internship, Berkeley, CA

- Developed large-scale reconstruction algorithms and implemented massively parallel data distribution scheme for cryo-electron microscopy reconstruction on state-of-the-art supercomputers

September 2005 III International Summer School on Numerical Linear Algebra in Image Deblurring, Monopoli, Italy

August 2005 Mathematical Modeling in Industry: A Workshop for Graduate Students, University of Minnesota Institute for Mathematics and its Applications (IMA), Minneapolis, MN

Professional service and community activities

- Memberships

- SIAM Society for Industrial and Applied Mathematics
AG: Computational Science and Engineering, Imaging Science, Linear Algebra, Uncertainty Quantification
- AMS American Mathematical Society
- AWM Association for Women in Mathematics

- Editor

- 2020-2022 Associate editor for *SIAM Journal on Matrix Analysis and its Applications*
- 2018 Guest editor for *Sampling Theory in Signal and Image Processing: Special Issue on Harmonic Analysis and Inverse Problems*

- Referee for

American Mathematical Monthly, Applied Mathematics and Computation, Applied Numerical Mathematics, BIT Numerical Mathematics, Bioinformatics, BioMedical Engineering OnLine, Communications in Nonlinear Science and Numerical Simulation, Computational Statistics, IEEE Conference on Decision and Control, IEEE Transactions on Computational Imaging, IEEE Transactions on Image Processing, IEEE Transactions on Medical Imaging, IMA Journal of Numerical Analysis, International Journal of Computer Mathematics, Inverse Problems, Inverse Problems and Imaging, Inverse Problems in Science and Engineering, Journal of Chemometrics, Journal of Computational and Applied Mathematics, Journal of Electronic Imaging, Journal of Global Optimization, Journal of Integral Equations and Applications, Journal of the Optical Society of America A, Journal of Scientific Computing, Linear Algebra and its Applications, Mathematics and Computers in Simulation, Numerical Algorithms, Numerical Linear Algebra with Applications, Pattern Recognition, SIAM Books, SIAM Journal on Matrix Analysis and Applications, SIAM Journal on Numerical Analysis, SIAM Journal on Scientific Computing, Signal, Image and Video Processing

- Conference Organization

- April 2022 Scientific Committee for 2022 SIAM Conference on Uncertainty Quantification, Atlanta, GA
- August 2020 SAMSI Numerical Analysis for Data Science Opening Workshop
- October 2020, 2021 STRIVE for MORE (Success Through Rewarding and Inclusive Virtual Experience for Mathematics – Opportunities in Research and Education) Conference
- October 2019 MORE: Mathematics - Opportunities in Research and Education, Blacksburg, VA
- June 2018 Scientific Committee for 2018 SIAM Conference on Imaging Science, Bologna, Italy
- June 2017 Householder Symposium Local Organizing Committee, Blacksburg, VA
- May 29-June 2, 2012 Mathematical Methods of Computed Tomography, Arlington, TX
- Selected as a 2012 National Science Foundation - Conference Board of the Mathematical Sciences Conference

- April 21, 2012 Sonia Kovalevsky Math Day for 6th-8th grade girls at the University of Texas at Arlington, Arlington, TX
- May 8, 2008 Sonia Kovalevsky High School Math Day at Emory University, Atlanta, GA
- Recruited local high school students, convinced local businesses to support the event with donations and discounts, and ran a session on “Image Processing and Graphics”
- **Minisymposia and Speaker Organization**
- April 2018 Received funds to host Dr. Joseph for the Women & Minority Artist and Scholars Lecture Series (grant in collaboration with Drs. Matthews and Johnson)
- May 2021 2021 SIAM Conference on Linear Algebra
Minisymposia: *Advances in Iterative Regularization Methods for Inverse Problems*
- August 2019 Conference on Modern Challenges in Imaging: In the Footsteps of Allan MacLeod Cormack, Tufts University, Boston, MA
Minisymposia: *Recent Advances in Algorithms and Software for Tomographic Reconstruction*
- July 2019 ICIAM, Valencia, Spain
Minisymposium: *Computationally efficient methods for large-scale inverse problems in imaging applications*
- June 2018 SIAM Conference on Imaging Science, Bologna, Italy
Minisymposium: *Krylov Methods in Imaging: Inverse Problems, Data Assimilation, and Uncertainty Quantification*
- July 2017 Mathematical Congress of the Americas 2017, Montreal, Canada
Special Session: *Computational inverse problems: from multiscale modeling to uncertainty quantification*
- May 2016 SIAM Conference on Imaging Science, Albuquerque, NM
Minisymposium: *Recent Advances in Hybrid Iterative Methods for Imaging Problems*
- October 2015 SIAM Conference on Applied Linear Algebra, Atlanta, GA
Minisymposia: *Recent Advances in Numerical Linear Algebra for Inverse Problems and A Celebration in Honor of Dianne P. O’Leary on the Occasion of her Retirement*
- May 2015 Applied Inverse Problems Conference, Helsinki, Finland
Minisymposium: *Efficient Methods for Large-Scale Inverse Problems in Imaging*
- July 2014 2014 SIAM Annual Meeting, Chicago, IL
Minisymposium: *Computational Methods for Inverse Problems in Imaging*
Sponsored by SIAG Applied Linear Algebra
- May 2014 SIAM Conference on Imaging Science, Hong Kong
Minisymposium: *Advances in Numerical Linear Algebra for Imaging*
- February 2013 SIAM Conference on Computational Science and Engineering, Boston, MA
Minisymposium: *Advances in Computer Algorithms for Imaging Science*
- June 2012 SIAM Conference on Applied Linear Algebra, Valencia, Spain
Minisymposium: *Numerical Linear Algebra and Optimization in Imaging Applications*
- May 2012 SIAM Conference on Imaging Science, Philadelphia, PA
Minisymposium: *Inverse Problems and Statistical Learning in Imaging Applications*
- July 2010 SIAM Annual Meeting, Pittsburgh, PA
Minisymposium: *Optimization for Nonlinear Inverse Problems*

March 2009 SIAM Conference on Computational Science and Engineering, Miami, FL
Minisymposium: *Inverse Problems in Industrial Applications*

- **Invited Panel**

November 2020, MIT Office of Graduate Education Path to the Professorship Program
2021

May 2017 Girls to STEM-MD, Jefferson Center, Roanoke, VA

July 2010 The Future of Numerical Linear Algebra panel at the Conference on Numerical Linear Algebra: Perturbation, Performance, and Portability

April 2010 Women in Math career panel at the University of Maryland

April 2009 Association for Women in Math career panel at Emory University

March 2009 Miami Dade College Tools for Success (TFS) Program career panel

TFS (funded by NSF) aims to increase the number of under-represented students completing undergraduate degrees in science, technology, engineering, and math

- **Community**

2020 Served as a program leader for SAMSI Program on Numerical Analysis in Data Science.

2019 Served on the prize committee for the 2020 SIAM SIAG/IS Early Career Prize and the Best Paper Prize

2018 Developed and ran an activity for high schools students at the VT Math Xperience 2018. Activities included puzzles and games based on the mathematics of tomographic reconstruction and experimenting with MATLAB codes for image processing.

2018 Elected Vice-President of the Department of Energy Computational Science Graduate Fellowship Alumni Association

2016-2017 Elected Secretary of the Society for Industrial and Applied Mathematics Activity Group on Imaging Science

2014-2017 Selected to serve on the SIAM Career Opportunities Committee

2015-present Association for Women in Mathematics VT Student Chapter, Faculty Mentor

2016, 2018 Developed activity for science girls summer camp (3rd to 5th grade girls) at the Science Museum of Western Virginia

2014 Association for Women in Mathematics Workshop for Graduate Students and Recent PhDs at SIAM Annual Meeting 2014

- I serve as a mentor for two women who are recent PhDs and served as a judge during the poster session.

2011 The University of Texas Louis Stokes Alliance for Minority Participation

- I served as a poster judge at the 2011 Summer Research Academy (SRA) conference

2009-2013 Department of Energy Computational Science Graduate Fellowship

- I serve on the screening committee for new applicants and the alumni committee.

- I served as a poster judge at the 2011 DOE CSGF annual conference

2009-2011 Women in Math group at the University of Maryland at College Park

2009-2011 Association for Women in Computing at the University of Maryland at College Park

- 2009-2011 Computer, Mathematical, and Natural Sciences Postdoctoral Association at the University of Maryland at College Park
- 2007-2009 Association for Women in Mathematics (AWM), Student Chapter at Emory University
2008 Co-president, 2007 Vice-president
 - Established a mentorship program for first year graduate students
 - Invited and organized lunches with prominent female speakers to increase the presence and interaction of women scientists with Emory's graduate students
- March 2009 Invited scribe for "Forward Looking Panel" at SIAM Conference on Computational Science and Engineering

Teaching and Mentoring

- [At Virginia Tech](#)

Math 5524 Matrix Theory, *Spring 2022*

Math/CS 5486 Numerical Analysis and Software II, *Spring 2018*

Math 2405H, Mathematics in a Computational Context, *Fall 2020, 2018, 2017, 2016, 2015*

CMDA(Computational Modeling and Data Analytics) 3606

Mathematical Modeling: Methods and Tools II, *Fall 2021 (2 sections), Spring 2021, Fall 2018, Spring 2017, 2016, 2015*

Computational Modeling and Data Analytics (CMDA) is a new major developed in 2012 and established in 2016 at Virginia Tech in the intersection of Mathematics, Statistics, and Computer Science with an emphasis on real world applications. I am a founding member of this degree program. I am involved in designing the major, developing courses, and recruiting students to the program. I developed new courses, including CMDA 3606, which is an interdisciplinary mathematical modeling class, and I co-developed the introductory quantitative sciences sequence CMDA 2005/2006.

Math 4445, Numerical Analysis, *Fall 2013*

Math 2224, Multivariable Calculus, *Fall 2013*

Math 3054, Programming and Mathematical Problem Solving, *Spring 2013*

Math 112, Calculus II, *Spring 2007, Fall 2006*

Teaching Assistant Training and Teaching Opportunity Program, *2005*

Postdoctoral research fellows

- 2018-2020 Jiahua Jiang, Mathematics, VT
Dr. Jiang received her PhD in Computational Science and Engineering at the University of Massachusetts Dartmouth. Dr. Jiang was a tenure-track Assistant Professor in the School of Information Science and Technology at Shanghai Tech University. Currently, Dr. Jiang is an Assistant Professor in the School of Mathematics at the University of Birmingham.

Supervised students

- Ph.D. students

- 2015-2021 Taewon Cho, Mathematics, VT
Thesis: *Computational Advancements for Solving Large-scale Inverse Problems.*
- 2014-2019 Tanner Slagel, Mathematics, VT, co-advised with Matthias Chung
Thesis: *Row-Action Methods for Massive Inverse Problems.*

- Masters students

- 2021-present Ashlyn McDonald, Mathematics, VT
- 2016-2020 Hodjat Pendar, Thesis: *Recovering signals in physiological systems with large datasets.* Mathematics, VT
- 2015-2017 Taewon Cho, Thesis: *Numerical Methods for Separable Nonlinear Inverse Problems with Constraint and Low Rank.* Mathematics, VT
- 2013-2015 Matthew Brown, Thesis: *On the Use of Arnoldi and Golub-Kahan Bases to Solve Non-symmetric Ill-posed Inverse Problems.* Mathematics, VT
- 2014-2015 Joseph Tanner Slagel, Thesis: *The Sherman Morrison Iteration.* Mathematics, VT, co-advised with Matthias Chung
- 2013-2015 Maha Elouni, Project: *Efficient Minimization of ℓ_1 -regularization for Image Reconstructions.* Mathematics, VT

- Undergraduate research & theses

- 2022 Eva Whaley, *High-performance iterative methods for atmospheric inverse modeling.* CMDA, VT
Recipient of CMDA Undergraduate Research Grant
- 2021 Raga Murali, *Computational Methods for Large-Scale Inverse Problems in Atmospheric Applications.* Mathematics, VT
Recipient of the VT Department of Mathematics Traditional Option Outstanding Senior Award
- 2019 Michael Wills and Damon Shaw, *Optimum Slithering and Digging of Elongate Organisms in Granular Media.* Mathematics, VT
- 2018-2019 Aimee Maurais, Honors Thesis: *Computational Tools for Bayesian Inverse Problems with Python Implementations.* Math and CMDA, VT
Recipient of the VT College of Science Outstanding Senior Award
- 2018-2019 Anuradha Trivedi, *Hybrid Krylov Methods.* Mathematics, VT
Recipient of the VT Department of Mathematics Applied Computational Mathematics Option Outstanding Senior Award
- 2017-2018 Oliver Stratton, *Randomized Algorithms for Large-Scale Inversion.* CMDA, VT
Recipient of a Hamlett Undergraduate Research Scholarship
- 2016-2017 Parisa Samareh, *Accelerating Thermoacoustic Tomography.* Mathematics and CMDA, VT
Recipient of the VT College of Science Undergraduate Research Award
- 2017 Jonathan Ross, Mathematics, VT
- 2015 Zheng Wang, *Theory and Computational Methods for ℓ_1 -Regularization.* CMDA, VT

- 2013-2014 Tuan Nguyen, Honors Thesis: *Learning Approach for Computing Regularization Parameters Selection in Tikhonov Regularization*. BS with Honors in Math, VT
- Spring 2012 Uditha Perera, University of Texas at Arlington
- Fall 2011 Dianna Nguyen, University of Texas at Arlington
